OFFICE OF THE

HEALTH
OMBUDSMAN

Most Murri don't like to complain, but complaints about health services are very important.

They can identify areas for improvement, stop the same problems happening again and help to make health services better for all Murri.

The Office of the Health Ombudsman is Queensland's free and independent health service complaints agency.

Did you know it is against the law for a health service provider to punish you for making a complaint?

Have a yarn with us today, we can assist you with your complaint.
